Restored Santa Maria to Go Through Locks Wednesday

Area residents will get a close-up view of the restored Santa Maria, replica of the flagship of Christopher Columbus, when the vessel sails through the locks of the city locks Wednesday morning on its voyage to an anchorage spot near the Gateway Arch on the St. Louis riverfront. The precise time is not known, but the Santa Maria is due at the locks about noon Wednesday.

The historic Santa Maria, seriously damaged in a storm which wrecked the vessel through the locks on the Mississippi River one year ago yesterday, was purchased by Sam Fox, president of Fox Industries of Madison on Feb. 10.

Restoration and refurbishing projects were carried out at the Grafton docks under the exacting supervision of Fox and several experts in the area of historic artifacts, including Col. Howard Chappelle, curator of the Transportation division of the Smithsonian Institution, Washington, D.C.

As the Santa Maria approaches the Gateway Arch area about noon Wednesday, the shipboard cannons will be fired and a welcome will be extended by other residents of the city.

Returned as Christopher Columbus will disembark from the ship and plant a flag on the levee. The ship will be towed by the tugboat Robert E. Lee.

Open to Public Friday

The ship will be formally open to the public at noon Friday with a ribbon-cutting performed by St. Louis Mayor A. J. Csernak, a 21-gun salute and a flag-raising ceremony.

Noting that the Santa Maria is now structurally sound and seaworthy, Fox said the ship will be displayed as part of a complex to be called the Santa Maria Center.

Route 203 Job Due For Bids This Year

4-Lane Improvement Plan Advances After Fund Freeze is Lifted

Widening of Route 203 to a four-lane highway from the current two-lane highway to Interstate 270 at Mitchell included on this year's work schedule of the State Highway Department and is expected to be included in the November bid call, Robert Kronst, district highway engineer at French Village, told the Press-Record today.

Kronst said the Nameoki road project was among those held up for two years by the U.S. freeze on federal highway fund allocations to Madison and St. Clair counties. He said the project was about to construction stage this year as a result of the lifting of the freeze which already has resulted in a series of contract awards on priority jobs in the two counties.

The Route 203 improvement which will include widening to up for two years by the U.S. freeze on federal highway fund allocations to Madison and St. Clair counties. He said the project was about to construction stage this year as a result of the lifting of the freeze which already has resulted in a series of contract awards on priority jobs in the two counties.

Need Right-of-Way
Kronst said several parcels of right-of-way are still needed for the Route 203 job, but that the project was about to construction stage this year as a result of the lifting of the freeze which already has resulted in a series of contract awards on priority jobs in the two counties.

Agreements between Granite City and the state still must be signed, however. Kronst noted that projects involving streets that extend into municipalities, agreements of mutual understanding on all points such as drainage, location of intersections and other matters must be obtained before the project can proceed.

He said this is particularly true in the case of Granite City which, under its zoning and building ordinances, effects building controls over an area.

USW Local 1022 Renames Spiroff in Runoff Vote

Members of United Steelworkers Union Local 1022 at General Steel Industries re-elected their president, George Spiroff, by a substantial majority, but chose a new vice-president and re-elected the recording secretary by a margin of only one vote in union balloting Friday. Officers of the steelworkers union are elected to three-year terms.

Contests developed in the Local 1022 election for the three top spots on the ballot and for grievance committee posts in Groups 3 and 4.

Election of a new vice-president resulted from attempts by incumbent Vice-President Angela Condelione to take the presidency from Spiroff in a contest that ended with Spiroff polling 584 votes to 175 cast for Condelione.

The vice-presidents office went to Robert Schildman, who formerly was grievance committee member of Group 4, but who vacated that spot to become a candidate for vice-president. Schildman defeated Spiroff by 490 to 231.

Re-Elected by One Vote
Carlton Davis was re-elected recording secretary, but by a margin of only one vote. He polled 377 votes to 376 cast for Robert Elliott.

James Gaskin was elected grievance committee member of Group 3, defeating Dan Sheehan by 100 to 100 votes. Three candidates fought the committee post in Group 4, where the post went to Clinton Howard with 95 votes. The other two candidates, Don Bourland and Larry Rainwater polled 89 votes each.

All other officers in Local 1022 were re-elected without opposition. They were: Don H. Cain, financial secretary; Wayne Griffith, treasurer; John Fryntko, James Gaskin and John Crab, trustees; John Fryntko, chairman of the compensation committee; Elmer Miller, grievance committee of Group 1; and Harlan Luffman, grievance committee member of Group 2.

The accident occurred while the car was parked in front of Capehart's home. Mehelic was ticketed by Madison police on a charge of careless driving.

MORE ABOUT Route 203

MORE ABOUT Santa Maria

Maria Historical Center. The restored vessel will be cradled on a steel framework between two steel flatdeck barges, each 196 feet by 35 feet with 18 compartments.

"We decided not to refloat the Santa Maria because of the many problems involved with mooring a wooden-hulled ship on the St. Louis riverfront. There would be a constant threat of damage and deterioration from floating logs, ice and river traffic," Fox commented.

Artifacts Restored
He noted that 80% of the artifacts originally displayed on the ship have been recovered and restored, including 15th century chests, navigational instruments, desks, statues and weapons.

"Other attractions in the complex will include a gift and souvenir shop and a snack bar on one barge and an elegant river restaurant on the other barge," the owner said. The new complex will be moved as a unit from Grafton down the Mississippi River through the Chain of Rocks Canal to its new anchorage near the Arch.

More than 20 tons of mud was removed from the hold of the Santa Maria before reconstruction of the ship could begin, following its almost total destruction last June. Fox purchased the damaged ship for \$1 and 10% of the annual gross revenues from its operation as a tourist attraction.

within one and a half mile radius of the city limits.

Granite City has proposed a revision in the state's drainage plan for the highway improvement in the north Granite area. The city seeks to enlarge the size of the stormwater line proposed by the state to handle a greater flow of drainage and therefore drain a greater area.

The state has told the city the change can be made if the city will assume the additional cost of about \$15,000 for the larger-size drainage line. Kront said this involves only the material cost. Granite City has negotiated with Namekoi township officials in an attempt to get the township to share half of the \$15,000 added cost since the line also would help drain part of Namekoi township territory.

Kront said that his district 8 highway office at French Village is moving Madison county projects that were delayed by the freeze as rapidly as possible.

Received \$17 Millions
"We have only received \$17 millions so far," Kront commented, "and it is necessary to act first on projects that have a definite safety factor." He said the Route 203 improvement "is on this year's work schedule" and that it will advance to a contract stage "but the latter part of the year."

The state highway department has bid calls this year in July, October and November, he said. It is probable, he said, that the Route 203 job will be included in the November bid.

call so that work on the improvement could get under way as soon as weather permits early in 1971.

Estimated cost of the project has been set at \$1,385,000. Other Quad-City area projects cleared by the lifting of the freeze include construction of the interchange at the north access of Southern Illinois University, southwestern campus to Highway 143 at a cost of \$1.5 million; construction of a grade separation over the railroad tracks at Chicago avenue near the Army Depot as part of the Federal Aid Route 151 extension, at a cost of \$600,000; and reconstruction of the intersection and improvement of the Granite City-Collinsville road approach to Route 111, at State Aid Route 35, at a cost of \$400,000, including right-of-way costs.

Kront said the construction of the Chicago avenue grade separation will be placed on the list, however, because considerable right-of-way problems involving railroad property are anticipated. In addition, no further extension of the Great River Road southward is planned immediately and "there is no need to build an overpass out in the middle of the railroad tracks and just have it standing there."

Auto Accident
Involved in an accident Sunday evening at 22nd street and Madison avenue were auto driven by Helen Beine, 1221 Meridian street, and Claud Weir, 2125 Benton street. Police said the Beine auto was making a left turn.

TRAVELING BY AIR CALL HOLIDAY SERVICE, 452-3131
A homesick soldier who wrote last December from Vietnam that he missed seeing snow was greeted with a batch of fresh frozen snow when he arrived home last week from Southeast Asia.

MELTING FAST. Packed snow held by Sp/4 Clifford Hunt, 22, recent Vietnam returnee, melts quickly into hands of his sister, Carol, 10, in Friday's 80-degree temperature. The snow was gathered by the serviceman's brother, Fred, 20 (right) last December and kept in the family's freezer pending the soldier's arrival home.

Preserved Snow Greeted Vietnam Returnee Home

Army Specialist Four Clifford Hunt, 22, son of Mr. and Mrs. Irvin Hunt, 4124 Kaseberg lane, who brought home with him the Army Commendation Medal for meritorious service and the Bronze Star Medal, was presented the snow upon arrival here for a 35-day leave.

The serviceman "definitely was surprised" when greeted by his family with a load of frozen snow, preserved since a pre-Christmas snowfall in the winter of 1968. The snow was frozen specifically for the veteran's homecoming. The snow was gathered by his brother, Fred, 20, during the season's first snowfall in the Quad-Cities, Mrs. Hunt said.

During the past 12 months, Sp/4 Hunt has served as a combat demolition specialist, based at Camp Radcliff, near Pleiku, in the Central Vietnamese Highlands. His primary responsibility involved destroying enemy bunkers and similar captured strongholds in various sectors of Vietnam, to which his outfit was airlifted by helicopter.

The citation accompanying the Army Commendation Medal, reads in part: "Presented to Specialist Four Clifford H. Hunt, U. S. Army, Company C, 4th Engineer Battalion, Fourth Infantry Division, who distinguished himself by exceptionally meritorious service in support of allied counterinsurgency operations in the Republic of Vietnam."

"During the period June 1969 to June 1970, while serving as a combat demolition specialist, Sp/4 Hunt astutely surmounted extremely adverse conditions to obtain consistently superior results. Through diligence and determination, he invariably accomplished every task with dispatch and efficiency."

"His unrelenting loyalty, initiative and perseverance brought him wide acclaim and inspired others to strive for maximum achievement. Selflessly working long and arduous hours, he has contributed significantly to the success of the allied effort. His commendable performance was in keeping with the finest traditions of the military service and reflects distinct credit upon himself and the United States Army."

Sp/4 Hunt attended Granite City high school and was employed by Coordinated Youth Services, a United Fund agency prior to entering the Army in January 1969. Following his furlough, he will report July 26 at Fort Campbell, Ky.

Junior Tamburitzans To Host Ohio Group

The Happy Strings Junior Tamburitzans and their sponsors, C.F.V. Lodge 222 of Granite City, will entertain the Happy Hearts Junior Tamburitzans from Youngstown, Ohio, at the Liberty Home on Wednesday, July 1. Guetler has served two years as president of the United States Soccer Football Association (USSFA).

The workshop is being conducted in cooperation with USSFA to help develop certified coaches qualified to conduct and organize coaching courses and coach players. The workshop is part of a move to upgrade soccer in the United States and USSFA certificates for coaching will be awarded to all passing the course.

Individuals may register for credit, or on a conference non-credit basis. The credit registration fee is \$25; the non-credit fee, \$15.

Pontoon Gets Heavy Hitting But Grace Hits Heavier

Grace Baptist out-slugged Pontoon Beach to win 16-7, Nameoki Methodist stopped Niedringhaus 11-9 and Tri-City Park beat Bethel 14-7 in Church League softball at Worthen park Friday.

Grace and Pontoon together totaled 36 hits including 15 for extra bases. A 21-15 edge in the hitting department was in Grace's favor. Doing the best plate work for Pontoon were Al Crawford with a home run and Bob Dechard and Mike Ellsworth each going four-for-four.

Pacing Grace with three hits apiece were Bill Ellsworth, including a homer, Mike Schieffer, Sam Funkhouser and Dick Fanning. Dave Sartin added a home run.

Mick Kaula's three singles and a double in four at-bats led Nameoki to a 21-14 edge in the hits department. Irv State went four-for-four, including three doubles, for Niedringhaus.

Bethel rallied for five runs in the last inning, including Jack Dawson's homer, but it was too little, too late.

Safe Boating Week Points Up Need of Basic Rules

President Nixon is going to sell two of the three Presidential Yachts, perhaps thinking the expense of one yacht is enough for any "One" family. Undoubtedly he has combined thoughts on "safety" and "boating" and proclaimed this week as National Safe Boating Week.

Coincidentally, this week includes the Fourth of July week end when many of the 45 million American boaters will order the first mate of his yacht to head to sea or tell his wife to grab a paddle.

During this weekend when the waterways are heavy with pleasure boat traffic, the need for safety on the water increases.

This annual safety campaign and others like it have not been wasted. The number of yearly boating fatalities has been almost constant—between 1250 and 1350—since 1950, despite an increase of more than five million in the number of boats in use.

Basic Safety Vital

As President Nixon stated in his National Safe Boating Week proclamation—which sounds laudistic but is simply a basic truth—"Boating is and should be enjoyable, but it will remain that way only if the safety of all those engaged in boating is insured by knowledge and practice of boating safety rules."

Nixon's comment is sound, but one can't pattern his boating practices after all the Presidents.

Extra Base Hits Earn Clark's Win

Clark's Vikings defeated Sammie's Taver n 8-3, GC Dodge dropped Liberty Home 5-1 and Zips beat Abels Auto Body 9-4 in Northern Classic softball at Worthen Park Thursday.

Tom Tindall's two-run homer in the first started Clark's use of extra base hits for runs. In the second Don Rains' double helped obtain two runs. Dave Tindall's triple sent a runner home in the sixth. Ken Fowler's double and Bill Cox's triple combined with Norm Grote's single an error for the final three Clark runs.

Clutch hitting earned runs for GC Dodge in each of the beginning four innings. Liberty Home left seven base runners stranded. Jack Sattick of GC Dodge won game batting honors with two doubles.

The top of Zips batting lineup had a good night. Lead off man Ira Martin collected three triples, Larry Higgins, two doubles; Jim Stephens, a home run and cleanup batter John Bohm ended two doubles and a triple going three-for-three. Also the ninth player in the ten-man lineup, Carl Svoboda added, with three-for-three sick work.

Wib Spalding to Drive Balls Instead of Cars

Granite City auto racing driver Wib Spalding will pick up a baseball bat for the Sports Celebrity Home Run Hitting Contest in Busch Stadium at 7:30 p.m. Wednesday preceding the St. Louis Cardinals vs. Chicago Cubs game.

Others in the homer contest will be bowler Dick Weber, Blues hockey player Red Benyon, football Cardinals Davey Williams and Chuck Lauterette, St. Louis soccer Stars' Pat McBride, boxer Clarence Pierson and golfer Bob Cochran.

Each celebrity will wear the uniform of his professional sport. Spalding will wear his asbestos suit and carry his crash helmet.

His crash helmet may double as a batting helmet. Spalding's wife, Rose Spalding, explains that Wib hasn't touched a bat in ten years and then only to knock a softball at family picnics.

Odds are against Wib winning this annual homer contest; an auto racing driver has never won. But he plans to get in some practice swings with friends before Wednesday.

Though the object of the contest is to slug home runs, batters have seldom been produced by the non-baseball

Slow-Pitch Meets Slated July 4, 11

Neal Keen was far and away the top rider in Saturday night's professional motorcycle racing at the Tri-City Speedway.

Keen topped the feature race, followed by Billy O'Brien, second, and Robert Lee, third.

To garner best qualifier honors, Keen clocked the quarter-mile oval in 16.10 seconds. He won one of the two semifinals and won a heat event.

Lee won the other semifinals and a heat, O'Brien won the other heat event.

The co-proprietor of Granite City Honda, Roy Higgins, won the runoff race for non-qualifiers. It was his first race on a closed circuit track.

ABOUT THIS QUESTION:

EARL says...

Okay, let's face it. All this rain has made for some lousy fishing. Hard rains bring riversets of new food in the form of insect life, fingerlings washed into feeding areas, as well as general disruption of water beds, releasing all sorts of new plant and microscopic animal food for all fish to feed upon.

So... since you might well wait for the waters to quiet, and since the coming week-end is the 4th and a time to enjoy, you might just as well spend your extra time in the next few days restocking your fishing and camping needs at EARL'S Surplus Discount Store. At least one thing is sure. All that food makes for healthier larger fish to be caught.

My youngest son is away at camp this week, and he just wrote home. You know how he closed his letter? "THAT'S DAVID BROTH-ER!" I tell you, I got the smartest kids. Well...

THAT'S EARL, BROTHER...

Sutcliff Deposits Spalding, Sets Track Mark

Dick Sutcliff of Topeka, Kan., ousted Granite City's Wild Spalding from two Tri-City Speedway racing car honors Friday.

On the events, Sutcliff in his shiny super-modified sprinter No. 40 clocked a new track record on the half-mile clay oval. Spalding had owned the record since June 19, 1965, with a qualifying time of 23.66 seconds; Sutcliff whirled around the oval for a 22.83 clocking.

In a four-car feature battle, Sutcliff nosed out Spalding for the win. Bill Utz earned third in the bumper-to-bumper, high-velocity traffic and Jerry Blundy was a close fourth. Spalding had won all three previous features here this season.

The feature competition was so fierce that the track clocks never showed more than 43 hundredths of a second separating each of the front four cars in the accident-free race.

Run Extra Laps
Excitement so infused the four leaders of the pack that they did not notice the checkered flag and continued until red safety lights went on to stop them after the third extra lap.

Upon coming to a halt in front of the pit area near the grandstands, drivers leaped from their autos to congratulate Sutcliff on the racers-edge win.

The top hobbyist of the night was the one-armed Don Carter of Hillsboro, Ill. He won the Double-O feature, driving a 1966 Fairlane. George Gruenfelder of Madison, piloting a rebuilt 1956 Ford, was second.

Pat King, with a 327-cubic-inch-displacement engine in a

lightweight 1957 Chevrolet body and frame, was third. Bobby Stanton of Alton was fourth, guiding a 1969 Camaro.

The pits were jammed all evening with 28 sprint cars and 21 stock-hobby cars. The half-mile oval clay was in excellent condition.

Brief Drizzle
The weather was nice except for five or ten minutes. A small black cloud rolled slowly in over the track to create a light drizzle. The brief rain troubled neither the cars nor the fans but reminded everyone that he was at the Tri-City Speedway, plagued by adverse weather for much of this season.

Only one accident marred the

night's program. A four sprint car pileup occurred on the first turn of the fifth lap in the semi-feature. No one was hurt.

Ron Rodgers of Florissant went into a sideways spin and was "tee-boned" (hit broadside) by Rich Kneple of Springfield, Ill. Chuck Lynch, also of Springfield, attempting to avoid the colliding cars, bounced off the guard railing.

Tom Corbin of Carleton tried to thread-needle his way between the railing and Lynch but lost his car's front end against the rail. All four were out for the night.

Four sprinters blew their engines during qualifying trials; all others, both sprint and hob-

by cars, progressed normally through the program.

Perkins Wins Semi-Feature
After the track was cleared of the pileup, Ron Perkins won the semi-feature and

Charles Botten was second. Sprint heat winners were Sutcliff, Utz and Lou Thery. Qualifying behind Sutcliff's record time were Utz, second, Blundy third, and Spalding, fourth.

Utz won the handicap-trophy dash, followed in order by Spalding, Blundy and Sutcliff.

In the hobby trophy dash, Carter was first, Gruenfelder second, Louie Jansen third and Ronald Robertson, fourth.

For the hobby semi-feature, actually a heat race traveling the distance of a heat race and paying heat prize money, Jansen was first, Carter second and King, third.

At the Jefferson City, Mo., Speedway Saturday evening Spalding won the feature, with Utz placing second. Jay Lyles was the fastest qualifier and Spalding was second fastest.

Utz won the trophy dash and a heat event; Spalding also won a heat.

Seebold Second in Detroit Boat Racing
Billy Seebold Jr. of Granite City placed second at Detroit's inboard motor boat races Sun-

day, Frank Byers of Kentucky, piloting "Miss Budweiser," took first place.

The waters of the Detroit River were choppy for the race and speeds were slower than usual for all boats.

Rozzycki Champion Of 24-Team Softball Invitational Meet

Rozzycki Blues, of the Granite City park district North Classic softball league, won a 24-team invitational tournament at Alton Saturday and Sunday.

To take the tourney championship, Blues earned victories in five consecutive games.

Jim Stephens contributed a home run in each of the five wins, including a fifth-inning homer in the championship contest; this homer broke a 3-3 tie and beat Joe's Inn of St. Louis, 4-3. Blues' Paul Mosby had a .750 batting average in the tourney.

On Saturday, the Blues beat Southwest Teachers 17-3 and Rose Bowl Inn of St. Louis 16-7. In the opening game Sunday, the Blues faced another Granite City team, Victory Tavern. The Blues trailed Victory by 12 runs in the third inning but came back to win 26-4 and then beat Alton Dodge in the semifinals, 7-6.

Dunn Bows Out at Quaterfinal Level
James Dunn of Granite City guided the quaterfinals of the district golf tournament at Meadowbrook country club in St. Louis county but bowed Friday to Bob Mason of Greenbrier links.

Jay Haas, medalist of the Southwestern high school conference championships held here during the spring, also was eliminated Friday, by Jim Tom Blair, the eventual tourney champion.

Observe 25th Wedding Year

Mr. and Mrs. Warren MacZura, 3208 Aubrey avenue, were honored Saturday evening at a reception at the operating Engineers Hall, 520 Engineer road, the occasion being their 25th wedding anniversary. It was given by Mrs. MacZura's parents, assisted by their families.

Mr. and Mrs. MacZura were married June 23, 1945, at Sacred Heart Church by the late Monsignor Costello. She was formerly Margaret Rodgers.

The evening began at 6 o'clock with a celebration of the Mass at St. Margaret Mary Catholic Church by Rev. Hugh Cassidy. At 7 o'clock the guests enjoyed a buffet supper, followed by dancing. Mrs. Lee McGarran presided over the guest book.

Silver and white decorations, together with turquoise blue flower arrangements were used. A tiered cake centered the tables at which the attendants at the wedding 25 years ago were seated and corsages were presented to the ladies, Mrs. Shirley Kibort, Mrs. Marie Ropac, Mrs. Virginia Werth, Mrs. Haroline Ross, Mrs. Joyce Carper and the flower girl, now Mrs. Marlene Hart. Others who were in the original wedding party were Ronald Bricks, who served as ring bearer, and Robert Plantz, both of whom were carnation boutonnières. The bride of the groomsmen from out of town were unable to attend.

The highlight of the evening was a double engagement announcement, that of a son of the MacZuras, Terry MacZura, to Miss Marilyn Schmitz of St. Louis, and a niece, Miss Kathy Ann Kibort, fiancée of Russell Hamilton. Corsages were presented to both girls.

Both older sons of the MacZuras, Terry and Roger were at home on leave from the U. S. Navy to take part in the celebration. The couple has two other children, David and Margaret Ann.

SOUTHERN BRIDE. Mrs. Lawrence Reader, the former Susan Peterson. She was married Saturday in Fayetteville, N. C.

Reader-Peterson Nuptials Saturday in North Carolina

The wedding of Miss Sharon Elizabeth Peterson, a daughter of Mr. and Mrs. Donald Peterson of Fayetteville, N. C., and Lawrence Craig Reader, a son of Mrs. Andrew Bauza, 2412 Edison avenue, and Richard Reader of Alton, took place Saturday afternoon at Holy Trinity Episcopal Church in Fayetteville.

Rev. Henry Johnston Jr., officiated at the 4 o'clock ceremony in a setting of white flowers, greenery and lighted candles.

The bride wore a gown with a Victorian look. It was of sheer organza, featuring rows of imported Chantilly lace down the front of the bodice, bishop sleeves and a silk organza train attached at the waist. A Camelot bonnet with silk organza orchids held in place a three-tiered veil, and white roses, baby's breath and shattered carnations were combined in the bride's colonial bouquet.

She carried an heirloom lace wedding handkerchief carried by her mother, her great-grandmother, and nine other brides in the family.

Miss Kristin Peterson, a sister of the bride, was maid of honor, serving with four bridesmaids, Mrs. Robert Eberseidt and Miss Patricia Reader, sisters of the bride and groom, Miss Pam Provost and Mrs. Walter Folsom.

Their gowns of ice pink chiffon were also made on Victorian lines and accented at the

Empire waists and cuffs with Venetian lace and pink satin ribbon. Pink picture hats were trimmed with pink organza flower petals and their nose-gays were made up of pink and white summer flowers and centered with American Beauty roses and cascading ribbons of American Beauty and pink.

Bill Reader was best man for his brother, and Pat Morley, George Jennings, Pat Sullivan and Bill Sternberg were groomsmen.

The bride's parents entertained the wedding guests at a reception in the parish hall directly after the church service, and the newlyweds left for a brief honeymoon at Wrightsville Beach, N. C. They will reside at 505 Glenview avenue, Fayetteville.

At the reception a five-branched candelabra belonging to the bride's great-grandmother, and a silver punch ladle which had belonged to a great-great-grandmother of the bride were used.

The former Miss Peterson attended the Fayetteville schools and East Carolina University. Mr. Reader is employed by the Carolina Telephone Co. He attended Southern Illinois University.

ENGAGED. Miss Kathy Ann Kibort, whose betrothal of Pfc Russell William Hamilton is announced.

Hamilton-Kibort Engagement

Mr. and Mrs. Albert W. Kibort, 1817 Primrose avenue, are announcing the engagement of their daughter, Miss Kathy Ann Kibort, to Pfc Russell W. Hamilton, a son of Mr. and Mrs. Russell C. Hamilton, 4461 Highway 162.

The news was disclosed Saturday evening at a party honoring Mr. and Mrs. Warren MacZura, an uncle and aunt of the bride-to-be, on their 25th wedding anniversary.

Miss Kibort is a recent graduate of the local high school. Her fiancé, a 1968 graduate of the local high school has completed basic training and advanced individual training at Fort Leonard Wood. Before enlisting in the Army he attended Washington University and was employed as a draftsman by General Steel Industries, Inc.

Plans will be made for the wedding after Pfc. Hamilton completes one-year of duty in Vietnam.

HOME FROM CONVENTION. Mr. and Mrs. James M. Myrick and family of East Alton, formerly of Granite City, returned Thursday in their private plane after attending a four-day nursing home convention in Biloxi, Miss., following which they flew to New Orleans for a short vacation. Mr. Myrick leaves this week for his nursing home in Grenada, Miss., and will go later to Jackson, Miss., for further meetings.

MRS. WALTER BRUDER, the former Janice Faye Klein, who was married Saturday at Eden United Church of Christ in Edwardsville.

Bruder and Klein Nuptials At Edwardsville Saturday

Miss Janice Faye Klein of Moro, Ill., became the bride of Walter P. Bruder Saturday evening at Eden United Church of Christ in Edwardsville.

The parents of the couple are Mr. and Mrs. Homer Klein, 104 Maple street, Moro, and Mr. and Mrs. Donald Bruder, 3210 Newell drive, Granite City.

Rev. Thomas Tupper performed the 7 o'clock ceremony, and a reception was held afterward at the Hamel Community Building.

The bride wore a floor-length gown of organza over tulle, featuring a round neckline and an Empire waist banded with satin and finished with a small self bow in the front. Long puffed sleeves with eyelet embroidered organza cascaded down the front and through the back into the chapel train. Satin ribbon was laced vertically through the eyelet and a cap of lace and pearls centered with an organza bow secured a cathedral veil. The bride carried an orchid surrounded with ivy.

Miss Sherlyn Buhrmester, maid of honor and the bridesmaids, Miss Debra Davis, a cousin of the bride, Mrs. William Werner, the bridegroom's sister, and Mrs. Roger Nungesser, were in identical gowns of orchid chiffon with high waists banded with satin and embroidered lace, the bias, rolled necks slightly scooped, and short puffed sleeves fashioned of pleated orchid. Bands of orchid satin sprinkled with variegated embroidery secured their double veils of illusion and they carried orchids with ivy.

The flower girl, little Sandy Rinken, wore a long white silk organza dress with tulle. It had a high neck and Empire bodice with long puffed sleeves.

The waistline was trimmed with orchid satin and embroidered lace. She wore a cap of white organza with orchid embroidery trim and carried a basket of purple and white pom poms.

George Brink was best man, and the corps of groomsmen and ushers included Larry Curry, George Moore, James Warren, Dennis Klein, a brother of the bride, William Werner and Jerry Ritchie.

The former Miss Klein, a 1966 graduate of the Edwardsville high school and a recent SIU-SW graduate, will teach this winter in the Roxana school system. Mr. Bruder, a 1968 SIU-SW graduate, is employed in the personnel office of the university. They will reside in this area.

Here's an idea for adding new charm to the exterior of your home. An electric post light near your drive or sidewalk gives a warm, friendly touch to the front of your home. An electric eye turns the light on automatically at dusk... and turns the light off automatically at dawn. A post light can prevent falls. And it provides a sense of security, too, because you know there is **always** a light on after dark. Choose from three models (two shown above). Each has an electric convenience outlet on the post.

Legal Education Classes in Public Schools Planned

Illinois Attorney General William J. Scott and State Superintendent of Public Instruction Ray Page announced last week that their two state offices will cooperate in launching a number of legal education pilot projects in the Illinois schools.

"The new program will be designed to teach students their rights and responsibilities under the law," Scott said.

"The Attorney General's office will furnish the legal knowledge in such fields of current concern as consumer protection and criminal justice. Young people want to know how the law affects them in many areas—traffic rules and regulations, the rights of a police officer when he stops them, the meaning of search and seizure, unfair labor practices, contracts, leases, etc."

"Most important, young people should know that the law protects not only their life and property, but also every right they possess under our form of government."

Sup. Page said that the pilot projects will be started in suburban, rural and urban ghetto area schools. The number and exact location will be worked out by coordinators appointed by Scott and Page. The representatives of the two state offices also will plan the new legal education curriculum.

Passig, 20, of 1753 Chestnut street, making a left turn onto State street from the General Steel Industries parking lot, struck the right rear side of a southbound vehicle, driven by Mrs. Gertrude E. Young, 64, of 1008 Calhoun street, Madison, at 3:30 p.m. Thursday, police reported.

Bi-State Transit Facing \$2 Million Deficit This Year

The Bi-State Transit System may be forced to raise fares and cut some services in an effort to relieve a steadily worsening financial problem, the board of commissioners of the Bi-State Development Agency was told in regular meeting Thursday afternoon.

As a result, the board authorized an engineering study of fare increases and adjustments in service schedules, with an indication by Commissioner Edward Delmore, transit committee chairman, that if service curtailments are made they probably will be effected on the Illinois side.

The transit system increased fares and cut service on some routes last April following an engineering study by W. G. Gilman & Co., consulting engineers for the district.

Robert S. Knapp, chairman of the Bi-State agency's board of directors, said passenger revenue during the first three months of the current fiscal year is 7.25% less than anticipated and that the decline "is very disturbing."

Knapp said that if the rate of decline continued through the end of the fiscal year it would result in a deficit of \$1 to \$1.5 million more than the anticipated deficit of \$2 million in the operating budget. This could mean a deficit of \$2 million by the end of the fiscal year.

The board chairman said the passenger revenue projection was based on the agency's experience through the year and did not reflect current economic conditions which were unfavorable through the year.

It is obvious that we cannot afford to permit our transit system to continue the present rate of ever-increasing deficits," Knapp said.

Knapp added that "for the first time, Bi-State would be in default on its obligations," unless steps were taken to cut the loss.

At the same time, the Bi-State board said Thursday it will continue to direct studies for a rapid transit system in the metropolitan area despite efforts by the East-West Gateway Coordinating Council to take over the project.

Knapp declared it is up to Bi-State, and not the Gateway Council, to determine the breadth of the study, which is the point at issue between the two agencies. The Bi-State commissioners took no vote on the matter, but made it clear they will resist efforts of the Gateway Council to assume the duty of the rapid transit study.

The Gateway Council a month ago asked the U. S. Department of Transportation, which is funding the study being headed by Bi-State, to permit the council to take over the study from Bi-State. Last Wednesday the council adopted a resolution recommending that a consortium of four consulting firms begin detailed planning of the entire proposed \$2-billion system.

Knapp noted that Gateway's resolution did not change Bi-State's legal status with the consulting firms.

"We still have the contract," he said.

Collision on State
A collision at the entrance to General Steel Industries on State street at 4:12 p.m. Friday involved vehicles operated by Charles E. Michaels, 18, of 2437 Roney drive, who was traveling north on State, and John Lester Watson, 47, of St. Louis, who was leaving the GSI parking lot.

Defeat of virtually all of the "old-line" officers of the two large United Steelworkers' unions at Granite City Steel Co.—Locals 30 and 67—highlighted separate elections of the two unions in which both named new presidents and vice-presidents by substantial vote margins, it was reported today.

The election results were described as upsets in both locals, each of which has membership of more than 1000 workers employed at Granite City Steel Co. Officers of United Steelworkers unions are elected to three-year terms.

Members of local 30, balloting Friday, elected Elmer Zirges as president, defeating Alex Skubish, who has served several three-year terms as union president. Zirges polled 410 votes to 177 for Skubish.

In the local 67 voting, union members elected Vernon Burch as president over Philip Sykes, who also has headed the local 67 union for several terms. Burch polled 505 votes to 201 for Sykes.

New Vice-President
John Bonvicino was elected vice-president of local 30 from a field of three candidates to fill the office vacated by Zirges when he ran for the president's office. Bonvicino received 212 votes.

Senior Citizens To Meet Council On Wheel Tax

A delegation of senior citizens plans to appear before the June 6 meeting of the Granite City council to determine why the council failed to adopt an ordinance recently that would exempt persons over 65 years of age from paying the city's annual \$3 wheel tax fee.

Decision to ask for an explanation of the delay was reached in a meeting of about 60 senior citizens after it became known recently that the ordinance never was placed on the books, although council members had indicated they favored the plan.

John Zabel, 2511 Pontoon road, chairman of a Granite City Senior Citizens chapter, said a letter was drafted in the meeting, informing council members that while the "three dollars will not make or break us," the senior citizens objected to the "principle" of the issue.

Letter Sent to Council
Zabel said the letter would be sent to the council and that a group of senior citizens plan to appear at the next meeting of the council on July 6 to ask why the ordinance never was adopted.

The council agreed to the plan to exempt senior citizens from paying the wheel tax fee last January, but final action was held up pending revisions in the ordinance as originally drawn.

Council members, who discovered the oversight two weeks ago, claimed the ordinance had been referred to City Attorney Leon Scroggins to be prepared for passage. Scroggins said he was told he would receive suggestions for revisions in the bill, but never heard from anyone. He said he would search his files for the ordinance.

6 From Area Win Honors As Undergrads at U. of I.

Six area students, five boys and one girl, have been accepted into the Edmund J. James honors program for selected first undergraduate students at the University of Illinois at Urbana-Champaign. It was announced recently.

Local students are Michael Czwornog, son of Mr. and Mrs. Joseph Czwornog, 50 Bernadette lane; Paul Doroghazi, son of Mr. and Mrs. John Doroghazi, 4027 Stearns avenue; Dennis Kelahean, son of Mr. and Mrs. John Kelahean, 1701 Mitchell avenue; John R. Klesh, son of Mr. and Mrs. John Klesh, 97 Riviera drive; Dennis Schwertman, son of Mrs. Venita Schwertman, 2862 Indiana avenue; and Connie Koester, daughter of Mr. and Mrs. John Koester, 2415 Delmar avenue.

Paul Doroghazi's brother, Robert, who is a sophomore at the University of Illinois, received the same honor last year.

Designation as a James Scholar is the highest academic honor that can be conferred on a freshman entering the U. of I. They are selected on the basis of an outstanding high school record, high general scholastic aptitude for college work and an earned reputation for seriousness of purpose, persistence and self-discipline in academic endeavors.

In order to use their full academic capabilities, James Scholars are given an opportunity to work harder and learn more by enrolling in special courses and honors sections.

They are also permitted to make adjustments in their program to fit their exceptional abilities, to have honors advisors and to use study rooms in the James center.

The program is named in honor of Edmund J. James, U. of I. president from 1906 to 1920. Continued recognition as a James Scholar is dependent on maintaining a "B" plus grade average and participating in honors work.

Tax Collections Begin in Venice; Wednesday in GC

Collection of 1969 tax bills started in Venice township last night and will continue in Granite City Wednesday.

Venice taxpayers may pay their bills at the township assessor's office at Fourth street and Madison avenue from 9 a.m. until 3 p.m. daily, according to Town Collector Frank Reidelberger Jr.

Granite City Treasurer E. R. "Pat" Rich said the mailing of tax bills from his office began today and taxpayers may make payments beginning Wednesday in the city clerk's office at the city hall.

Rich said that because of the elimination of the switchboard at the city hall, a special line to his tax division in the city hall has been installed. Persons with inquiries concerning their bills may call 877-4747, Rich said.

Rich said he plans to continue collections through Friday, Aug. 28, but Reidelberger has not announced a definite deadline for shutting off collections.

The township began collections last week at the Granite City Trust & Savings bank, where payments may be made during regular banking hours. Nameoki Town Collector Edgar Patrick has not yet announced a deadline date.

Chouteau Township Collector Charles Lexow completed his tax collection period last Saturday.

SIU Opens New Conservation Study Retreat

A cluster of newly-built cabins that will become a retreat for studies in conservation and the environment has been formally opened at Southern Illinois University's Little Grassy Lake Outdoor Laboratory near Carbondale.

Called Camp Oikos — the Greek word for the natural environment — it will be the third residential camp in SIU's lake-side complex. The other two—Camp Akwesasne and Camp Little Giant—have been used mainly as recreational centers for handicapped and able-bodied school children.

Oikos is the first stone-and-wood development from the master plan for a unique program in public conservation education at Little Grassy Lake. Started in 1968, it operates under a memorandum of agreement between SIU and the Federal Bureau of Sports Fisheries and Wildlife.

The original plan involved 1500 acres of Crab Orchard National Wildlife Refuge land with another 6000 acres operated by SIU. Friday, University and Bureau officials signed a supplement to the original agreement, making the entire 44,000-acre refuge available for conservation education field trips from the base at Little Grassy.

Camp Oikos, overlooking the Little Grassy Lake from heights south of SIU's main camp, includes six cabins with sleeping accommodations for 48 persons. Each unit has its own cooking center in a combination living-dining-classroom.

Gerald Gaffney, liaison agent between SIU, the Bureau and various sportsmen's groups operating in the conservation education agreement, said teaching at Oikos will be in small, residential groups at each of the cabins.

The retreat will be available to teachers and their students, SIU classes, and other groups with environmental studies and conservation programs. The cabins, each trimmed in a different variety of native wood, are equipped for year-round use.

Robert Burwell, director of the Bureau's regional office in Minneapolis, was a guest at dedication ceremonies. President Delyte W. Morris of SIU and members of the board of trustees also were invited to attend.

The first residents of Camp Oikos will be Illinois high school students enrolled in a series of seven week-long Conservation Workshops scheduled this week.

A. O. Smith Proposing \$35 Million Offering

A. O. Smith Corporation has filed with the Securities and Exchange Commission a registration statement covering a proposed public offering of \$35 million of sinking fund debentures due July 1, 1985, it was announced by L. B. Smith, chairman and chief executive officer.

The debentures are being sold by the company to raise funds for use in its capital addition program. Initially most, if not all, of the proceeds will be used to retire bank debt incurred in 1970 for working purposes.

The debentures will be retired by means of a sinking fund beginning July 1, 1976, in annual installments of \$1,750,000 calculated to retire at least 95% of the debentures prior to maturity. During the initial 10 year period, the debentures will not be redeemable by A. O. Smith with any funds borrowed at interest rates lower than the debenture issue interest rate.

Breakneck Pace
Remember, this is an age of high pressure and high speed. Let's not catch the fever—it can be fatal.

St. Mary's Roman Catholic Church in Madison was the scene of the afternoon wedding Saturday of Miss Linda Brooksher, a daughter of Mr. and Mrs. James Brooksher, 903 Cambridge avenue, and Daniel Trofimuk of Mt. Clemens, Mich.

Mimosa webworm: Clusters of larvae tied together with silk threads are typical of mimosa webworms in mimosa and honey locusts. Small dark caterpillars are easily found inside the webbed nests.

At least two cycles occur in the metropolitan area starting in mid-June. In some cases trees are nearly stripped by foliage by late summer. Young trees are weakened by the insects and finally killed by the weather.

Spraying the lower portion of the tree every two weeks with malathion or carbaryl will control the hatching worms as well as the larvae in the nests. Thoroughly spray the lower limbs while you spot spray the nests in the top.

Climbing Cutworms: Clipped-off seedlings and severe chewing of the new foliage and the growing tip are signs of cutworms.

Cutworms are dormant in the soil during the day but actively feed on tender plants at night. When plants begin to develop, cutworms frequently climb the plant to chew off the tender leaves and growing tip.

During the day you can often find cutworms in the top three inches of soil near the injured plant. To reduce cutworm damage spray your small transplants with carbaryl. Thoroughly wet the foliage while you moisten the soil at the base of the plant. Examine the transplants in a few days for signs of feeding and suffering worms.

MRS. FRANK KUNICK JR., who was married Saturday at Tri-City Park Tabernacle. The bride is the former Sharon Kaye Clark.

Miss Sharon Kaye Clark, Frank Kunick Jr. are Wed

In a late afternoon ceremony Saturday at Tri-City Park Tabernacle, Miss Sharon Kaye Clark was married to Frank Joseph Kunick Jr.

The parents of the couple are Mr. and Mrs. Charles R. Clark, 1349 Edwardsville road, Frank Kunick sr., 4000 Lake drive, and Mrs. Roman Ortolan, 2807 Edwards street.

Candles in branched candelabra illuminated the altar decorated with greenery, and the attendants carried black lanterns with green globes holding

lighted candles and decorated with greenery. The ceremony was performed at 5:30 by the Rev. G. E. Mills, pastor of the Church of God.

Mrs. Betty Lou Hiles presided at the organ and accompanied the soloist, Miss Betty Freeze, as she sang "You Came Out of A Dream," the Lord's Prayer and "Always." During the ceremony Rev. John Polizzi, accompanied by Mrs. Dorothy Geno, played a cello solo, "Fascination."

Escorted by her father, the bride wore a gown of ivory peau de soie styled with a high waist of reembridged Peau d'Ange lace etched with pearls. Short puffed sleeves were

cutted with scalloped lace and the wide hemline was lace-trimmed. A detachable Watteau train fell from the waist in the back. It was also trimmed with lace motifs. A matching reembridged floor-length veil of Alencon lace was secured with a pearl-trimmed Juliet cap and the bride carried a basket of white chrysanthemums, pink pom poms, daisies and baby's breath, the handle tied with ivory ribbon.

Mrs. Karen Miller, twin sister of the bride, Miss Sandra Clark, another sister, as honor attendants, and Miss Ruth Economy, Miss Claudette May and Miss Linda Nelson, bridesmaids, wore ivory and pink and ivory and green horizontal striped starched voile dresses with long sleeves. The sleeves had wide cuffs and the slightly gathered skirts were attached to raised waistlines. They carried lighted candles in small black lanterns tied with ribbons.

Tina Parchman was flower girl and Jimmy Hartline, a nephew of the bridegroom, served as ring bearer. The former wore a long pink Victorian-style dress with a high neck and short puffed sleeves. The Empire waist was trimmed with pink ribbon and lace. She carried a small lantern with a lighted candle.

Andrew Economy was best man for Mr. Kunick, and groomsmen and ushers were Lloyd Miller Jr., brother-in-law of the bride, Les Hall, Eugene Ortolan, Simon Vaughn and Mick Mertz, the two latter cousins.

The wedding dinner was served at the church hall directly after the ceremony, and a reception followed at the American Legion Hall in Venice.

The newlyweds will be at home in Granite City after a honeymoon at the Lake of the Ozarks.

The former Miss Clark graduated from the local high school and attended Lee College in Cleveland, Tenn. She is a member of Delta Zeta Tau Society, WCCA Campus Choir, and served on the year book staff. She is presently employed at Biederman's Furniture store in Granite City.

The bridegroom graduated from Granite City schools and attended Southeast Missouri State College. He is now attending SIU-SW and is employed by the National Lead Co.

The guest book at the reception was presided over by Miss Cynthia Waterman.

Among the out-of-town guests here for the wedding were Mr. and Mrs. Claude May and Miss Claudette May of Kokomo, Ind.; Miss Betty Freeze, Lebanon, Ohio; Mr. and Mrs. Raymond Israel, Mr. and Mrs. Jeffrey Browers, Mr. and Mrs. Robert Savage, Rev. and Mrs. Powhatan Huffman, Mr. and Mrs. Kenneth Mayes, Mr. and Mrs. Eli Wharton, Mr. and Mrs. Ronald Wadlow, Mr. and Mrs. Paul Clark, and Mrs. Joan Hollisfield, all of Ironton, Mo.; Paul Hammond, Christopher, Ill.; Mr. and Mrs. Rojel Dyes, Biloxi, Miss.; Calvin Huffman, Elvira, Mo.; and Miss Marjorie Henderson of St. Charles, Mo.

Dissent Should Stop Before It Deprives Others of Their Rights

By STATE REP. SAM M. VADALABENE
(First of two articles)

The flag, to me, represents all that I fought for and risked my life to defend, and would do so again if called upon by our government. I am a first-generation American, a man who resides here because my parents wanted and loved liberty and the right to happiness. They knew there was a place on this earth where they could find happiness and freedom from fear and from religious tyranny.

Everyone of us, first or second or third-generation Americans, ought to give thanks to God regularly that our forefathers did think in terms of freedom and thereby gave us the freedom to achieve our ambitions.

We have come a long way. We have witnessed much that is good, and much that turns us to deep thought because of the bitterness which seems to prevail throughout our land. I am deeply disturbed by the lack of respect and lack of patriotism displayed by some of our youths.

To them, the words "I pledge allegiance to the flag of the United States of America and to the republic which it stands for" are meaningless.

The words, "One nation, under God, indivisible, with liberty and justice for all" seem also to be meaningless—though many of those same young men are first-generation Americans whose parents and grandparents came to these shores to escape exactly the persecution and anarchy which these youths now seem determined to spread throughout our land of liberty.

I wish youths who are so full of anger and hate would use a little more feeling for the common good, more service to others and for recognition of the flag.

I wish that they would recognize how true and significant and valuable it would be to all America to follow the admonition of our late President John F. Kennedy and ask that they themselves not want their country or others can do for them, but rather what they can do for those around them in need of their help and cooperation.

How much better it would be to follow that principle than to let the many who feel that it is the "in" thing to find fault with government, with our hallowed institutions and with the American way of life generally.

But the spirit of dissent and protest hangs heavily over all of us.

We find everywhere demonstrations against unequal treatment of minorities, against the manner in which we conduct our schools and universities—against the conduct in Vietnam and the recent developments by which we also entered Cambodia.

We find particular determination on the part of so many of our youths to destroy "the Establishment." Yet, they are the products of that establishment.

They are protected by lawyers who are of the establishment. They are the sons of the establishment and who are the growth of the education system which gave them their legal experience and degrees.

Appropriate Endorsement of Illinois-St. Louis Airport by the Coordinating Council

Rather than attempting to play a big role in planning the new Illinois-St. Louis major airport, a role suggested by the St. Louis county supervisor, the East-West Gateway Coordinating Council has wisely decided to instead endorse the planning being carried out by the state and municipal governments.

The joint authority being created by Illinois and St. Louis will be familiar with the needs of both sections of this metropolitan area and be responsive to the desires of both east and west, much the same as the Gateway Council. The Council is the body of elected and appointed officials which evaluates and coordinates a wide range of transportation projects and other improvements involving interstate interests and/or federal funds.

The \$350 million second major airport to be operated together with Lambert Airport at the colonial, complex undertaking, under even the most ideal of conditions, may take ten years to bring to fruition.

The joint agency should be accorded full jurisdiction and authority to proceed. It needs plenty of go-ahead votes and cooperation from the Gateway Council and everyone else, but it doesn't need Gateway as a partner, as Gateway recognized by its 12-2 endorsement vote last week.

St. Louis and Illinois have experience in running sizeable airports; they are prepared to pay the cost of designing and building the new airport and they have a record of considering the welfare of not only themselves but their neighbors. These factors ought to be enough to satisfy anybody.

YMCA Cluster Plan Enabling More Services To Be Provided in Area, More Economically

Outright merger of YMCA's in this region may not be advisable or feasible but the "cluster" plan being proposed by the St. Louis, Illinois and Missouri "Y's"—calling for cooperation short of actual consolidation—appears to be achieving economies and bringing more diversified services to the area.

Related dividends of the coordination between programs of the St. Louis YMCA and of smaller "Y's" include staff training and

development, expanded public relations, and wider use of innovative and efficient managerial techniques.

The Young Men's Christian Association from its inception has been what its names implies—and much more. Now its services are even greater than before in the communities in which its buildings and its character-building and recreation programs are operated.

Quad-City Area Stores Providing Tangible Evidence of Ability and Desire to Serve

With the Gaslight Plaza shopping center at Pontoon Beach firmly established and the downtown Granite City mall project gaining impressive momentum, plans have just been announced for still another improvement.

All stores in the Bellemeade Village shopping center are to be remodeled, and expansions are planned there by Glik's, Reese Drug Store, Bellemeade Hardware & Sporting Goods and the shops and businesses in the arcade area.

With the continuing drive to continue to grow, and with Quad-Cities showing increasing receptivity and wherewithal to buy a wide range of consumer goods, it seems clear that the local merchants serving this area are ready, willing and able to meet their wants and needs. Local stores, collectively speaking, are bigger and better than ever, and they are becoming more so with every passing day.

Planning Launched for Suitable Observance Of Granite City's Diamond Jubilee in 1971

Diamonds are said to be a girl's best friend, and diamond jubilees also are getting mighty popular in this vicinity.

Madison observed the 75th anniversary of its founding as a village with an observance which involved virtually every resident and former resident and which lasted eight days in June and July 1966. In 1972, it will have been 75 years since incorporation of Venice as a city; 1973 will herald the passage of a century since creation of the village of Venice.

Of more immediate impact is the 75th anniversary of the city of Granite City. A round-up of city-wide activities, parades and spectacles, marked the municipality's golden anniversary in 1946 and there is every prospect that the next milestone, the diamond anniversary, will be an equally festive occasion next year.

Planning already has been started by the Chamber of Commerce, which has been commissioned by the city fathers of Granite City to develop specific plans for commemorative activities in 1971. A new city flag already has been designed and produced, and a contest is being held for the design of an anniversary coin.

The coming year sounds to us like a great time for a party, blending a bit of the past with thoughts of the present and future. It could serve as a catalyst, generating a new surge of civic pride, interest and energy to assure that the next 75 years will bring even more enjoyment and progress than the 1896-1971 era.

We wonder if the U.S. Supreme Court has General John A. Logan spinning in his grave. A lawyer, soldier, congressman, U. S. senator from Illinois and commander-in-chief of the 162nd Infantry of the Republic, he said the first Memorial Day, April 29, 1866, "Every man's life belongs to his country and no man has a right to refuse it when his country calls for it."

THINKS PRO TEM TITLE WAS GIVEN TO PACIFY

To the Editor:

In reply to "Do Not Use My Name" in the June 18 issue, if he is to lay to Ray Kozielek, in recognition of why doesn't he reveal his identity? Letters written to the Forum supporting Mr. Kozielek have not been published.

Regarding acts of vandalism toward Mr. Kozielek, he is committed by the opposition to the police power—the right of the individual citizen to keep and bear arms shall not be infringed.

This recognizes that the individual citizen is sovereign and trustworthy, and a free individual subject only to the essential limitations that are imposed through such imposition of limits—such as prohibiting prison inmates from possessing guns—is specified or not.

As Oliver Wendell Holmes once observed when sitting on the United States Supreme Court, "Freedom of speech does not include the right to shout fire in a crowded theater." Stated another way, right to swing my fist ends where your nose begins.

On June 17, on first reading, we adopted a committee proposal to the effect that, subject to let run the city if elected? I have been attending the council meetings and listening to Mr. Kozielek's new ideas as acting mayor. He is revealing why he is going to let run the city if elected. He told us that the late mayor select Ray Kozielek as mayor per tem? The answer is simple. He was an anchor around his neck and all he should wear the red on Mr. Maera's coat.

ILLINOIS TAX ARTICLE—FLEXIBLE OR LIMITED?

To the Editor:

As the media have indicated, the Illinois Constitutional Convention now has begun to deal with the hard questions of over-

riding interest and concern to the citizens.

In my mind, specifically, the Revenue Article which we are now considering, and the Judiciary Committee's remaining article, are the two which will soon be filed, as well as those of the Local Government.

Last week we adopted my basic proposal putting into one sentence the law of the land, to the effect that—subject to the police power—the right of the individual citizen to keep and bear arms shall not be infringed.

This recognizes that the individual citizen is sovereign and trustworthy, and a free individual subject only to the essential limitations that are imposed through such imposition of limits—such as prohibiting prison inmates from possessing guns—is specified or not.

Broad Home Rule Power With Some Checks and Balances Is Proposed

(Springfield Scene)

The most complex and controversial questions to be faced by the Illinois Constitutional Convention—with the most far-reaching effects—have yet to be debated on the floor of the convention.

The least of these is local government, which, with revenue, could have more effect on the future economic climate of the state than all other articles combined.

Yet, unlike the Revenue Committee, the Local Government Committee is meeting the challenge head-on with a proposed draft granting broad home rule powers to counties and cities while retaining statewide checks and balances.

The proposed majority report, presently a skeleton which is being fleshed out, was developed from preliminary committee votes and the recommendations of several subcommittees which have been working independently.

The proposed committee report allows the state government the power to license for revenue and Vice-Chairman Philip Carey, of Chicago, has promised a strong minority report on this point.

The proposed draft denies local governments the ability to enact local income taxes but allows them to impose taxes for specific service areas.

The draft also provides for "legislative preemption" which is a major issue within the committee.

Part of the preemption section allows the state to limit or deny the taxing powers of local governments by action of a vote of both houses of the legislature.

(Other parts of the preemption section allow the state government to preempt the powers of local governments in areas of statewide concern—such as statewide regulation of professions and trades—by a simple majority of the legislature, but will allow local units concurrently regulate some areas.)

"The preemption section is unique," said Committee Chairman John Parkhurst of Peoria. "The section differentiates between a mere legislative denial of certain local powers—taxing and otherwise—which requires a two-thirds vote of each house; and an exercise of power by the state, which may be exclusive, but which permits local concurrence, and requires only a simple majority of each house."

Strong minority reports are expected on the provision calling for a 3% vote in both legislative houses on any form of preemption.

The commission would have the authority to recommend changes in county structure, such as the elimination of certain special districts, consolidation of others, transferring of certain functions and duties among officers and units of government, and to present its recommendations to the voters at a referendum at least once every four years for approval or rejection.

What's This Kind? I Can Tell You That Earl and Ruth Angle Would Have Been This Kind of Neighbor If They Had Only Been Given the Choice

People have won a hollow victory and they are moving from this city. May God forgive those who have done this to them, and may the property values of Pershing Avenue rise and upward so that they may hold it in their hands as evidence when the day comes to reap their harvest.

URGES CIVIL SERVICE—OPEN DOORS, PROGRESS

To the Editor:

To the people of the Third Ward, city of Madison—I have fought the city machine for many years and told the truth about it.

I am still fighting the machine, namely acting mayor Ray Kozielek, who has been an enemy for 15 years, and Christ Costoff, 4th Ward alderman for many years. These two are the core of the city machine in the city of Madison.

I am supporting a man who I feel is an independent candidate. He has never held elective office in our city—Mike Sasyk, who married and the father of three children.

Ray Kozielek is a bachelor. What interest does he have in politics and schools?

I have not been promised a job or any money because that is a violation of the Illinois Revised Statutes.

I am fighting for honesty in our city government, open caucuses, police to be taken out of politics, no completely, and civil service in our street department. I am fighting to stop the political tug from the city em-

ployees, who are making and more out of our city forward, with the people being a part of our city government.

This is why I'm supporting Sasyk for mayor of Madison.

Miss O'Guin, Lee Purkey, Jr. Exchange Wedding Vows

First Assembly of God Church was the scene of the wedding Saturday afternoon of Miss Connie O'Guin and Lee J. Purkey Jr.

The bride is a daughter of the late Mrs. Freda O'Guin of Granite City. Mr. Purkey's parents are Mr. and Mrs. Lee J. Purkey sr., 620 Leander court, Lemay, Mo.

The church was decorated with white summer flowers, the altar lighted with burning candles in branched candelabra.

The bride was escorted down the white-carpeted aisle by her brother, Robert O'Guin, who gave her in marriage. Rev. M. A. Groff officiated at the 2 o'clock service in the presence of relatives and friends of the couple.

The former Miss O'Guin wore a gown of imported silk

Empire bodices were fashioned with shallow, scoop necklines and short puffed sleeves. Embroidered bands encircled the high waists with obi bows and streamers. Their flowers were white daisies in clutch bouquets tied with moss green ribbon. Matching flowers were worn in their hair.

A little flower girl, Kim Evans, wore a long white baptiste dress trimmed with daisy appliques. She carried a basket of rose petals and daisies.

The wedding reception was held in the Fellowship Hall of First Assembly Church. Mr. and Mrs. Purkey will reside at 119 Sherbourg, Mehlville, Mo.

The former Miss O'Guin graduated from Granite City high school and now holds a secretarial position in the offices of Sverdrup, Parcel and Associates in St. Louis. Mr. Purkey graduated from Hadley Technical high school and is employed in St. Louis.

After the meeting all repaired to the dining room which was profusely decorated for the occasion with green net runners the length of the white-covered tables and silver shoes holding flowers flanking green candles. The head table held a centerpiece depicting the emblem of the worthy matron and patron. It too carried out a green and yellow color scheme, using yellow mums and green candles were at either side in star point holders. Favors followed the general theme. They were small old fashioned shoes designed by Mrs. Mary French and patterned after the glass shoe presented to the worthy matron. Approximately 100 persons attended.

First Aid Unit To Aid in Case Of Disaster

The initial meeting of a group of trained first-aid workers to form an organization to work with the Red Cross, Civil Defense and other organizations if this area was stricken by disaster was held Thursday night in the council room of the city hall in Granite City.

Victor Koenig, Granite City CD director, opened the meeting by explaining how the group could work with other phases of the Civil Defense program.

Mrs. Maxine Duniphan, local first-aid authority, introduced Ernest Johnson, co-ordinator of the Wood River Township Volunteer Emergency Corps. He spoke to the group, outlining supplies which are needed in time of disaster.

Mrs. Duniphan gave a resume of the goals of the group which include several points for preparing their program of aid. They include a method of contacting persons in time of need; a place to meet when disaster might occur and a place for regular meetings; immediate access to materials previously assembled; a place to store such materials and supplies in case of an overflow of hospital patients, as part of the program, a place to shelter victims after emergency aid is given at the hospital; transportation for the injured; and a method of communication in case of disruption of telephone service.

Asst. to Area
Mrs. Duniphan said these ideas when co-ordinated, could be a great asset to the area should the need arise.

During the meeting plans were completed to hold regular meetings at 7:30 p.m. in the Civil Defense building, 1411 Nineteenth street, the fourth Monday of each month.

During the next meeting on July 27 action will include appointment of a telephone committee, selection of a name for the group and the election of a chairman. Any resident in the Quad-Cities interested in the program is invited to attend the meeting. Persons not trained in first-aid may join the group and take training later or become a member of a working committee.

Kiwanis Cancel Meet To Go to Ball Game

Members of the Kiwanis Club, their wives and families will attend a baseball game in St. Louis tonight in lieu of a regular dinner meeting. It was announced today by Norman Hall, president.

Kiwanis members are continuing plans for the annual boat races, scheduled for Aug. 16, sponsored by the club. The races will take place at the Bowline Boat Club on the Mississippi River near the Hartford Canal.

Peter Jellen, ticket chairman, said sales are well ahead of schedule with a total of 1500 tickets sold. William Seebold will again serve as chairman for the races.

An Inter-Club meeting with an East St. Louis Club was held on Thursday at Andrews Steak House attended by William Seebold, Ed Moore, Jellen and Norman Hall.

Funds received from the boat races and the annual peanut sales are used by the Kiwanis Club to aid the Spastic Foundation for Children in Chicago and provide local underprivileged children with clothing, glasses or necessary items.

Roy Feder, reporting on the Crutch and Wheelchair project, said the club is planning to purchase three wheelchairs and several sets of crutches to be loaned to local residents who need them on a temporary basis. The equipment will be available at Feder and Huber Furniture store.

Consumer Buying Survey Planned

Questions on consumer buying and home improvement expectations will be asked by representatives of the Bureau of the Census in this area during July. The survey is being conducted by Theodore F. Olson, director of the Bureau's regional office in Chicago.

The questions are asked four times yearly as part of a nationwide effort to collect information as a guide to federal agencies and other groups in developing programs based on consumer spending patterns. A sample of residents in this area will be asked if they expect to buy a house, car, or major appliance during the next year and if they have made recent purchases of these items.

Homeowners will be asked about home improvement and repairs during the last three months and any planned for the future.

For the first quarter of 1970 the survey showed an increase in the number of households expecting to buy a used car compared to April 1969; there was no corresponding upswing in new car expectations. Expectations to buy houses remained depressed. Expectations to buy furniture, floor coverings, and home improvements were not significantly different than in April 1969.

Information supplied by individuals participating in the survey is kept confidential by law, and will be published only in the form of statistical totals. The Census Bureau representative in this area is Mrs. Mary Lou F. Gallagher.
